- (h) LECs may require payment arrangements to be made for outstanding debt associated with basic local service and associated taxes and fees. Such arrangements will be made in a manner consistent with the company's Price List. If there are no written provisions, payment arrangements are to be made for a period of not less than four months.

This provision should not preclude LECs from collecting other portions of the outstanding debt by using any other methods as are customary for non-Lifeline subscribers.
- (j) Any payment made by the customer on the past-due amount will first be credited to unpaid basic local service charges.
- (k) If a Lifeline customer fails to pay charges for basic local service, the customer's Lifeline service may be disconnected. The customer will then be treated in the same manner as any other existing Lifeline subscriber with regard to reconnection after a disconnect for nonpayment; i.e., if Lifeline customers are required to pay outstanding basic local service charges before reconnection, this provision would apply to all Lifeline customers equally regardless of previous outstanding debts.
- (l) LECs may decline to provide other local services, including ancillary services, if the customer has outstanding debt for local service. Such service may not be declined for nonpayment of toll service.

{47 CFR 54.313(a)(1)}

1. In the FCC's Public Notice DA 14-951, released May 1, 2014, the FCC waived the requirement for price cap ETCs to file a five-year plan. The bureau stated that "until the [Connect America Phase II forward-looking] cost model is adopted and incumbents have the opportunity to accept a state-level commitment, it does not serve the public interest" to require price cap ETCs to file five-year plans.<sup>1</sup>

**Line 510: Service Quality Reporting/Consumer Protection Rules Compliance**

Standish Telephone Company/Maine Telephone Company, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Maine Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer Inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its *2005 ETC Order*,<sup>1</sup> the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."<sup>2</sup> The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."<sup>3</sup>

Maine Telephone Company, Standish Telephone Company, China Telephone Company, Northland Telephone Company and Sidney Telephone company (collectively the TG companies) are not currently under any "formal" Service Quality Reporting. The companies do report Service quality metrics on a quarterly basis. This is based on a verbal agreement with the Maine Public Utilities commission (the PUC). The TG companies report quarterly on 5 metrics: The five metrics are – Network Trouble report rate, % troubles not cleared in 24 hours, % install appointments not met, Average delay days for missed appointments, and outages. There are no benchmarks and no consequences for not reaching certain numbers.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at [consumer@fairpoint.com](mailto:consumer@fairpoint.com). The complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.
